SUMMARY

Experienced Front-end Developer with extensive knowledge in JavaScript, NextJS, TypeScript, and ReactJS. Successfully launched 10+ projects with a 20% average performance improvement. Led an agile team to a 10% increase in website speed and efficiency. Skilled in collaboration, innovation, and delivering excellence.

EXPERIENCE

FRONTEND DEVELOPER
Santoms   **December 2022 – Present, Lagos, Nigeria**

· Accelerated the maintenance and overhaul of the existing interfaces and the investment platform's codebase. This resulted in a significant improvement in the platform's overall performance, leading to Increased satisfaction among our clients. Specifically, I implemented optimizations that decreased page load times by an average of 25%, Improved the accuracy of investment recommendations by 15%, and eliminated a 10% reduction in the number of customer support inquiries regarding technical issues.
· Coordinated with my team in the development of multiple projects utilizing JavaScript and ReactJS. These efforts expanded efficiency and project success. Specifically, I helped to Implement new features that enhanced the user experience, resulting in a 20% Increase in user engagement, and reduced the average time required to complete projects by 30%. Our team's collaboration strengthened the quality of the projects and led to a 40% reduction in the number of bugs found in the final stages of development.

REACT DEVELOPER
Ullweb Technologies   **September 2022 – Present, Lagos, Nigeria**

· Streamlined project development by utilizing reusable components, resulting in an Accelerated 40% reduction in time spent on design replication and upgraded overall efficiency.
· Collaborated with cross-functional teams to enhance web applications, resulting in a Decreased 20% average load time, Improved 15% accessibility, and Enhanced 10% overall user experience as measured by user satisfaction surveys and website analytics.
· Utilized Next.js and React.js with a focus on efficient state management using Redux Toolkit, Achieving 90% successful projects per quarter and advanced project efficiency by 10%.

FRONTEND DEVELOPER
Yetti Technologies   **December 2021 – August 2022, Lagos, Nigeria**

· Refined the speed and efficiency of web applications at Yetti by effectively guiding a fast-paced and nimble agile team, leading to a 10% increase in website performance.
· Spearheaded the design, development, and launch of a cutting-edge chatting-shopping application that successfully connected consumers to producers. Boosted customer satisfaction by 15% through the implementation of user-friendly features and a seamless shopping experience through close collaboration with a team of engineers.
· Pioneered the build and maintenance of the official Yetti website using ReactJS framework and TypeScript, leading to a 25% surge in website traffic and a 30% improvement in user experience.

FRONTEND DEVELOPER
Vsonet Group   **January 2020 – February 2021, Lagos, Nigeria**

· Designed, developed, and maintained a web application framework using HTML, CSS, and JavaScript, enabling interactive internet-based applications and services.
· Redesigned the company website, implementing cutting-edge web development methodologies to improve website performance by 20% and enhance user experience.
· Mentored and trained junior developers, achieving 100% proficiency in utilizing various technologies and software.
· Participated in agile software development activities, including daily stand-up meetings, sprint planning, and retrospectives, to successfully deliver multiple projects on time and within scope.

PROJECTS

PORTFOLIO
Portfolio · January 2023 –February 2023

· Integrated modern design techniques to construct a simple yet impactful portfolio, intending to enhance user interactions and reach a wider audience. This resulted in a successful project with a positive impact. Specifically, I achieved a 35% increase in user engagement.

ARTSY
Art Photography · December 2022 – January 2023

· Developed Artsy using NextJS and TypeScript to enhance page efficiency and improve type security, resulting in a real-world application experience. Specifically, I implemented optimizations that simplified page load times by an average of 40% and improved the accuracy of type checking by 25%.

VSONET
Vsonet Groups · November 2021 – January 2022
· Redesigned Vsonet website from WordPress to JavaScript, improving UI, leading to a 40% boost in monthly website traffic and a 35% increase in user satisfaction per in-app surveys. Doubled positive design-related comments from users, enhancing the company's online presence and brand image.

EDUCATION

PROFESSIONAL DIPLOMA IN SOFTWARE ENGINEERING
Minor in Algorithms, Web Development, Mobile Development, Database · National Institute of Information Technology · Lagos, Nigeria · 2023

CERTIFICATIONS

COMPLETION OF FRONTEND DEVELOPMENT TRAINING
Side Hustle · 2021
Certified in frontend development and knowledgeable of key technologies and best practices.

COMPLETION OF FRONTEND DEVELOPMENT TRAINING
Vsonet Education · 2020
Certified in frontend development and knowledgeable of key technologies and best practices.
